**Help improve your child's achievements  
by developing his creativity!**

Dear parents,

I would like to provide you with a wonderful opportunity to encourage and affirm your child in his or her learning adventure. It is a well known fact that children who use their creative abilities are better achievers than those who don't.

Pottery lessons will:

- Enhance fine motor skills and eye-hand co-ordination
- Help strengthen low muscle tone
- Encourage children to concentrate and follow instructions
- Build confidence through feelings of self achievement
- Teach valuable social skills by working within a group situation.

**Lessons take place once a week at school and your child will be making two items per month-one week to create and the next to decorate. After the decoration is done, it will be fired, glazed and then sent home. One month's written notice is required when discontinuing classes.**

(Children 4 years and older)

**Fees: R410 per quarter, payable in advance.**

## **CAPITEC SAVINGS ACC.**

Acc name: S. Smit

Acc nr: 120 600 1133
